

$CDCl_3$

Girish Y R, 2016

Organic Chemistry Department | Indian Institute of Science

Field strength: 400 MHz

Why is this your favorite spectrum?

This spectrum is very exciting for me. This is the first report I have done using ester as an alkylating agent for *N*-alkylation of triazole. I have published this work in RSC advances and shown that generally *N*-alkylation shows peak at 3.9 ppm, but this compound shows peak at 4.3 ppm.
