

1-O-tert-butyldimethylsilyl-3,4-O-isopropylidene-6,7-ethyne-2,5 diol 63

Diol 63 Dilute Sample

Isolated protected diol

Christian Rodriguez, 2009

Chemistry Department | Bronx Community College

Field strength: 500 MHz

Why is this your favorite spectrum?

Good peak splitting patterns are observed, and peak overlap is observed as well. Peak multiplicity was determined.
