^{15}N -labeled deuterated protein, titration series with a binding partner

Nataliya Danilenko, 2016

Zentrum für Biomolekulare Wirkstoffe (BMWZ) | Leibniz University of Hannover

Field strength: 850 MHz

Why is this your favorite spectrum?

It feels like I'm in the middle of my second-year PhD blues... This titration just says "me too, Nat, I know what heartbreak feels like." Quite supportive I have to say!
