

nMR is ART

2D $^1\text{H}/^1\text{H}$ chemical shift correlation solid state NMR spectra of bone at 700 MHz under 42 kHz MAS with mixing time of 5 mins

Himanshu Singh, PhD, 2017

Chemistry Department | Ludwig Maximilians University

Field strength: 700 MHz

Why is this your favorite spectrum?

This is interesting because it looks as if an animal is playing football with its straight tail.
