

nMR is **ART**

Glycine, spin system

Asif Equbal, PhD, 2016

Chemistry Department | University of California, Santa Barbara

Field strength: 700 MHz

Why is this your favorite spectrum?

Decoupling efficiency profile of SC-AM-XiX pulse scheme as a function of rf offset (x-axis) and rf amplitude (y-axis).

Crown-shaped offset dependence depicts how profound is symmetry in nature at various levels.
