

The brave outsider

Gerd Inger Sætrom, 2017

Department of Biotechnology and Food Science
Norwegian University of Science and Technology (NTNU)

Field strength: 400 MHz

Why is this your favorite spectrum?

The spectra show different alginate samples, all lining up with more or less the same G-content, and then there is this one sample, the strong outsider, wanting to be something else. I think these NMR samples reflect our society in a nice way.
